

COVID-19 Response and Preparedness

Embassy National Bank is actively monitoring developments and guidance around the spread of the novel coronavirus (COVID-19). Our COVID-19 preparedness is coordinated as part of our bank-wide business continuity efforts and is intended to allow us to support our clients' needs with minimal disruption in the event of a pandemic outbreak.

Top of mind is the health and welfare of our employees, clients and partners. As a result, we have enacted the following precautionary measures, among others:

- Quarantining employees who have traveled to countries with Level 3 or higher travel advisories by the U.S. State Department, where there are pronounced COVID-19 outbreaks
- Limiting domestic business air travel
- Asking employees who exhibit flu-like symptoms to stay home
- Enabling our employees to work remotely
- Engaging our vendors and suppliers about their business continuity protocols to mitigate service interruptions and to ensure they are practicing prudent preventive measures
- Doing all we can to keep our employees abreast of COVID-19 developments

Currently, we are not experiencing unusual employee absenteeism and are conducting business as usual. As this is a rapidly changing situation, we will continue to keep you apprised as we know more.

Visiting Embassy National Bank?

If you are visiting our office and or branch location, we respectfully ask visitors who have flu-like symptoms or have traveled to these countries (China, Iran, South Korea and or Italy) in the past 14 days that have a Level 3 or higher travel advisory by the U.S. State Department to meet instead by phone or conduct business via our drive thru. Please contact your banker to make the proper arrangements. We appreciate your support in maintaining a safe and healthy workplace environment.

Questions?

Please contact your Embassy Universal Banker or Branch Manager directly at 770-822-9111 customerservice@embassynationalbank.com
